Donghia  
Icons

# The 30 Donghia Icons

DONGHIA

A fine selection of furniture, lighting and accessories that contributed to define Donghia's signature look and elevate it to an icon of American design.

4

The Donghia Icons are pieces whose alluring silhouettes have contributed to the success of some of the world's most acclaimed interiors.

Masterpieces of upholstery that are finely tailored sculptures, rich in sophisticated details and full of sartorial charm. Well-thought proportions along with the best materials result in their legendary comfort, known to last for generations.

5

6

Time-honored techniques

8

9

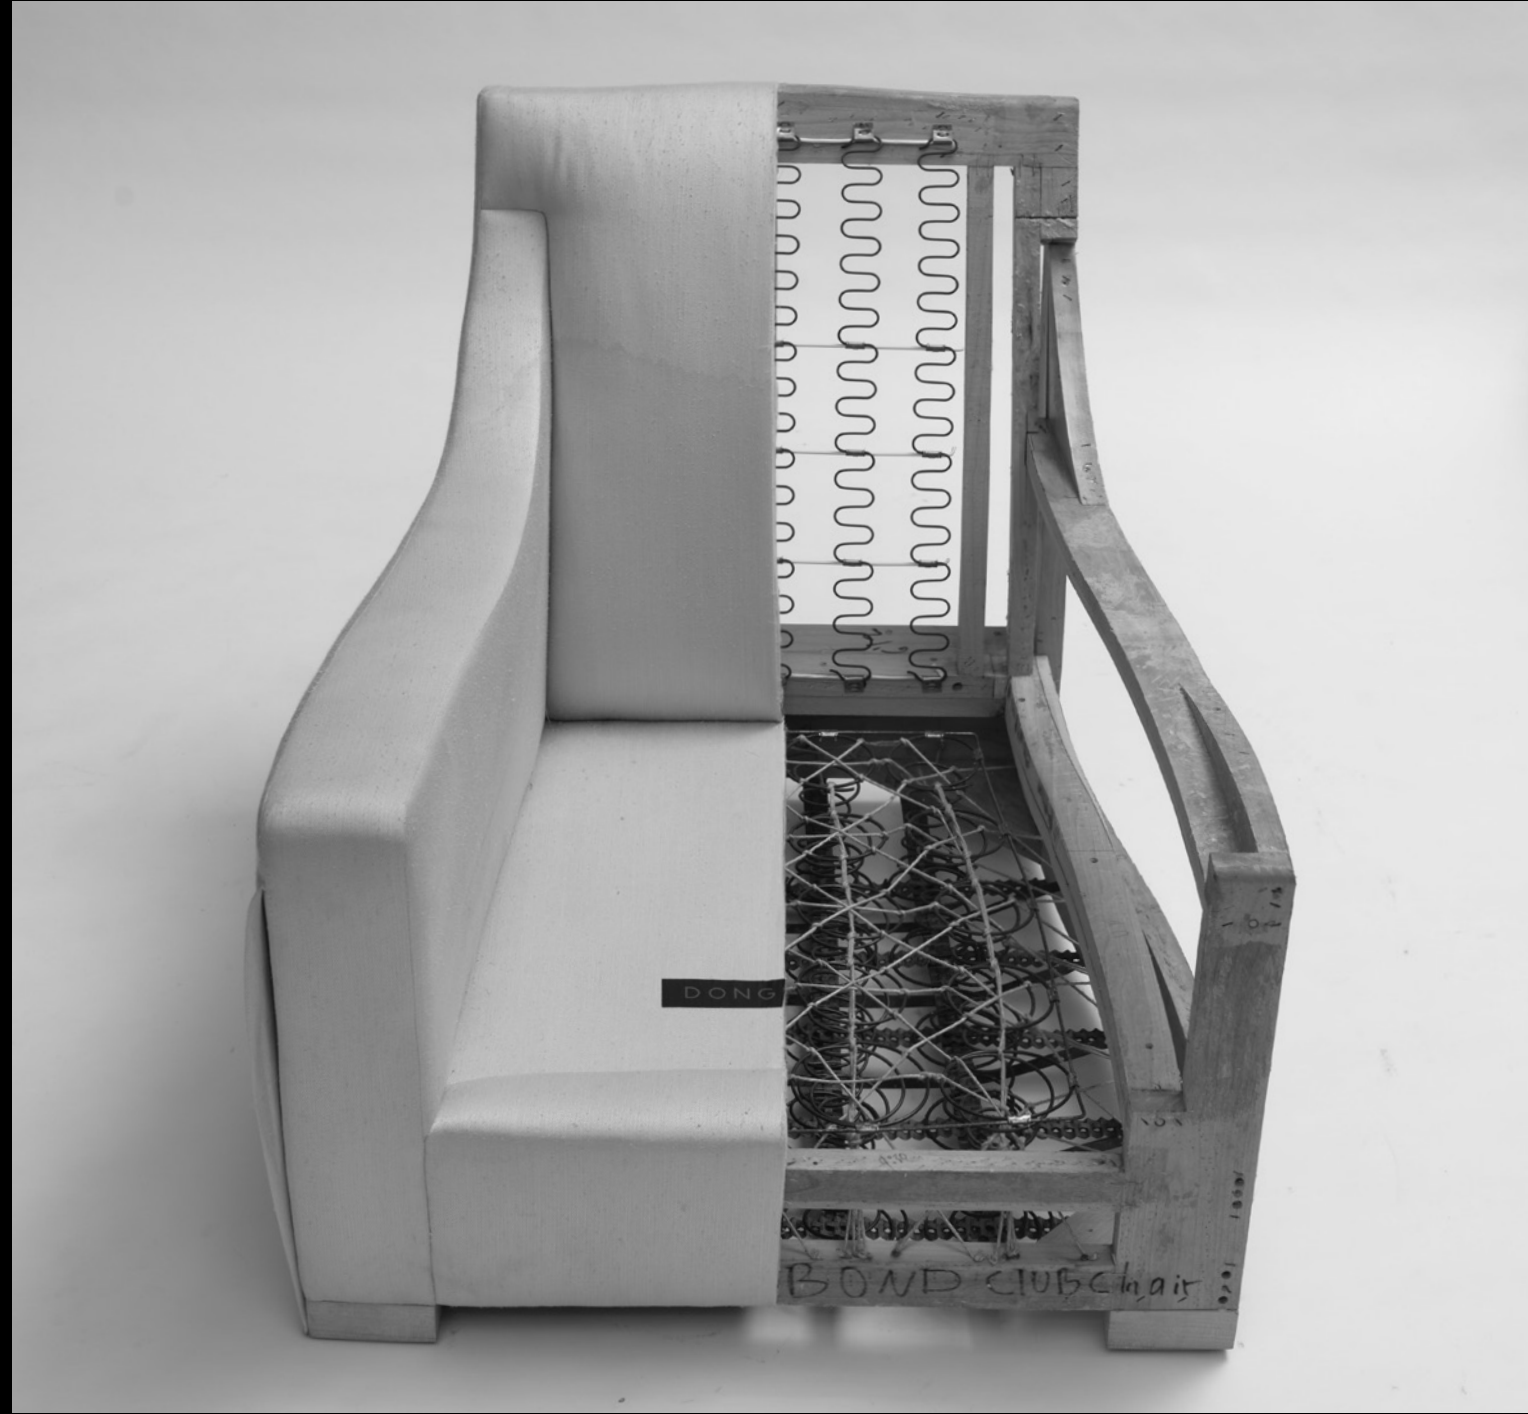

Superior Craftmanship

10

11

16 Donghia's iconic lighting and accessories are regarded as works of art for the mastery they require from craftsmen who create them in Murano, Italy.

Details familiar to connoisseurs of the trade, such as the twisted square section of the arms of Donghia's best known chandeliers, are the result of ancient and complex techniques that are closely guarded secrets.

17 In keeping with the legacy of its founder, Donghia believes that you should feel at all times that what is around you is attractive, and that you are attractive.

# Acadia End Table

18

19

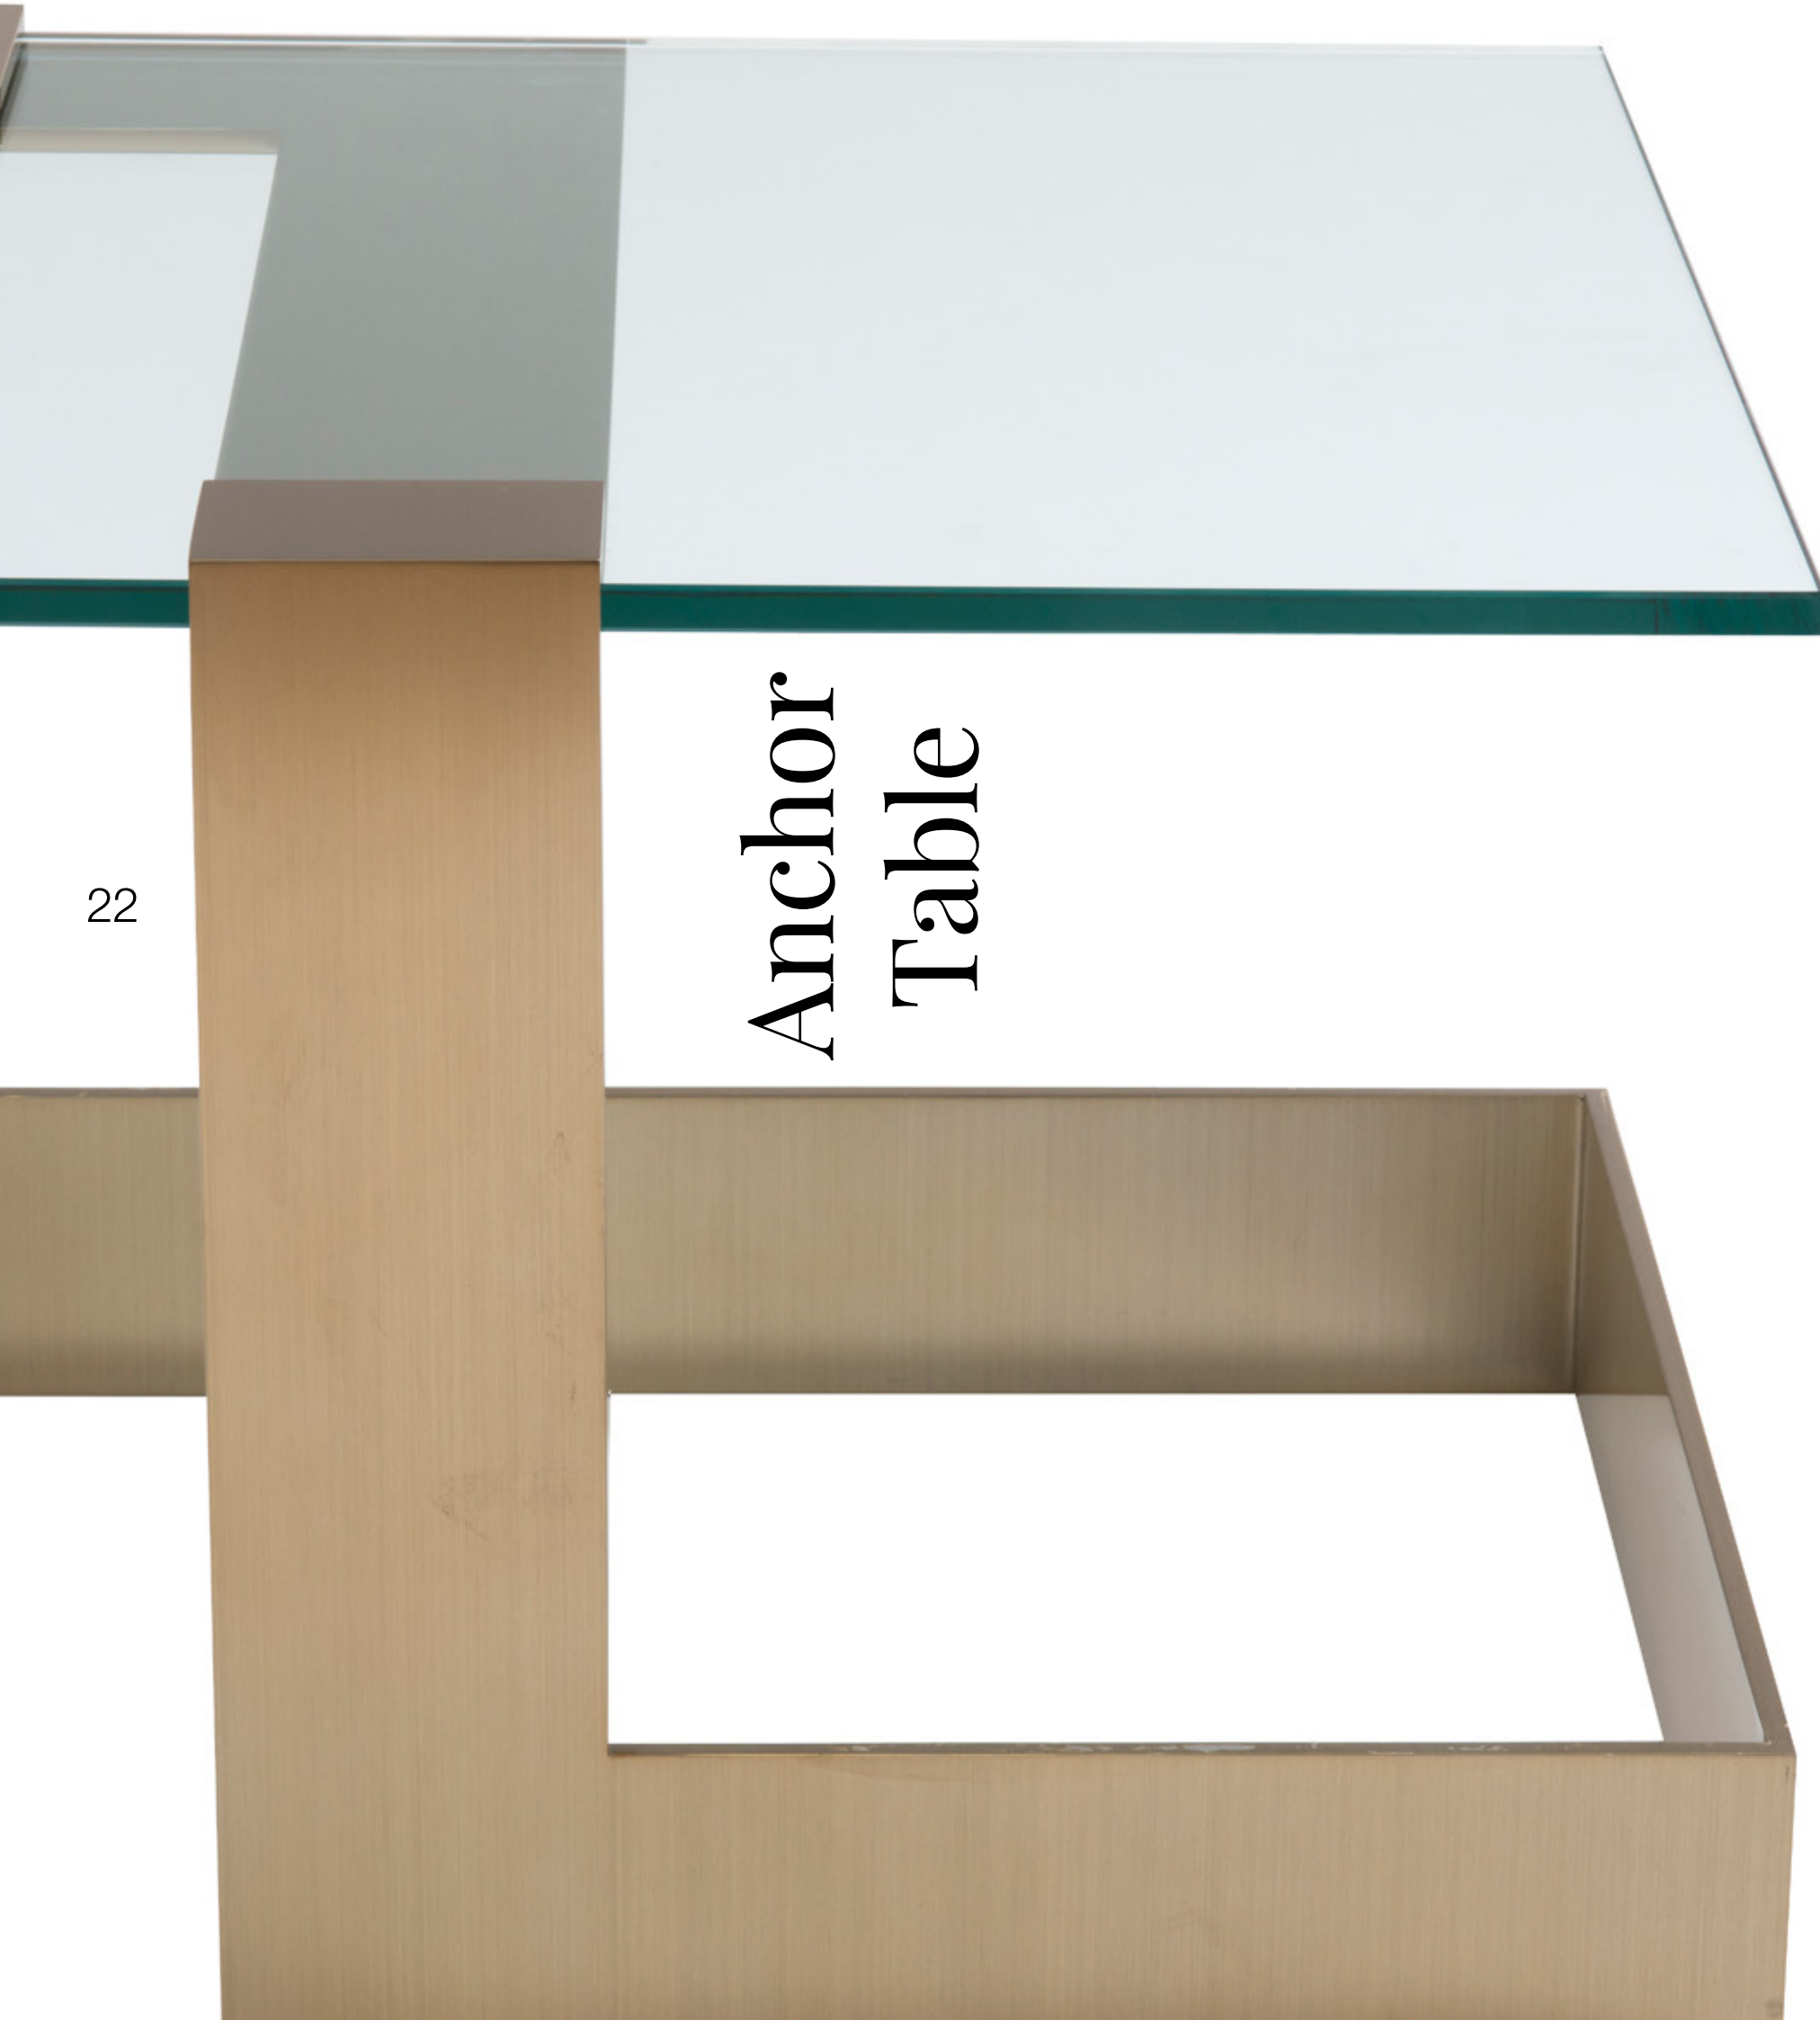

Distinctly American in aesthetic, scale and functionality, the Acadia End Table is an outstanding showcase of fine metalwork. The wide, round glass top and a starburst-shaped walnut shelf offer plenty of usable surface, making this table a true staple for any living space.

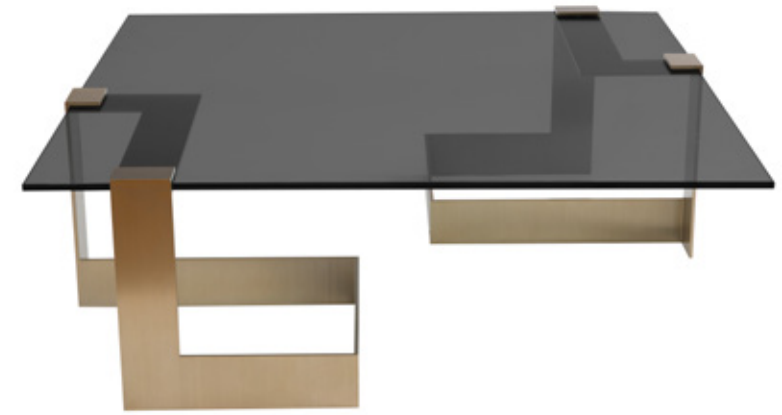

22

# Anchor Table

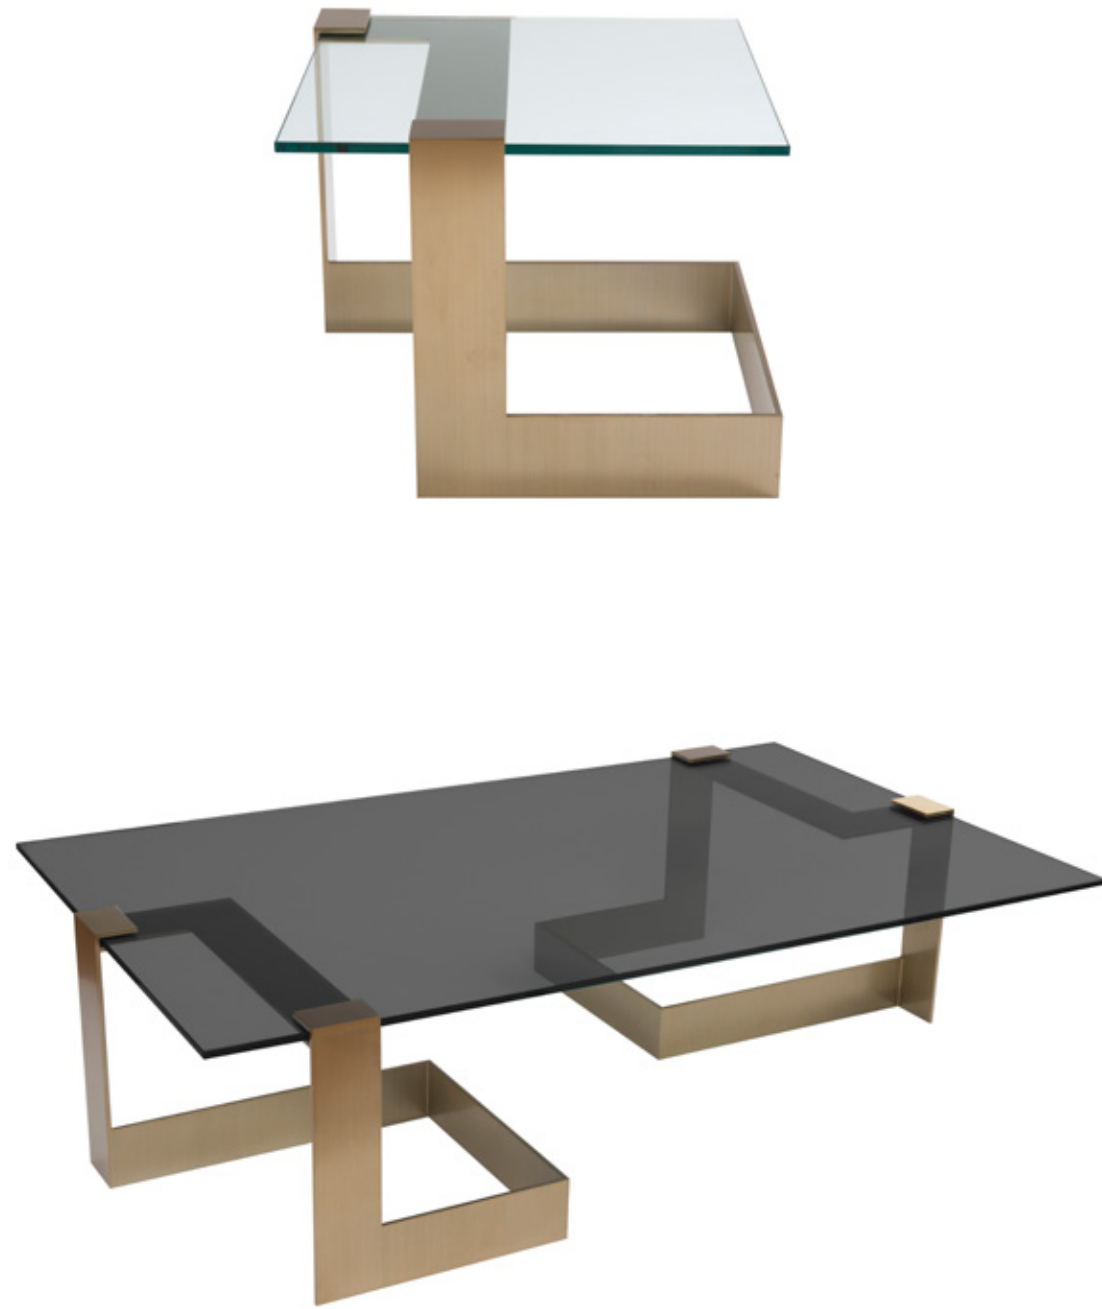

With a nod to the celebrated '70s urban style that is at the very root of the Donghia furniture brand, the Anchor table is a geometric and sophisticated design, composed of solid steel bases holding a glass top available in different sizes and colors.

23

24

25

# Anziano Collection

26

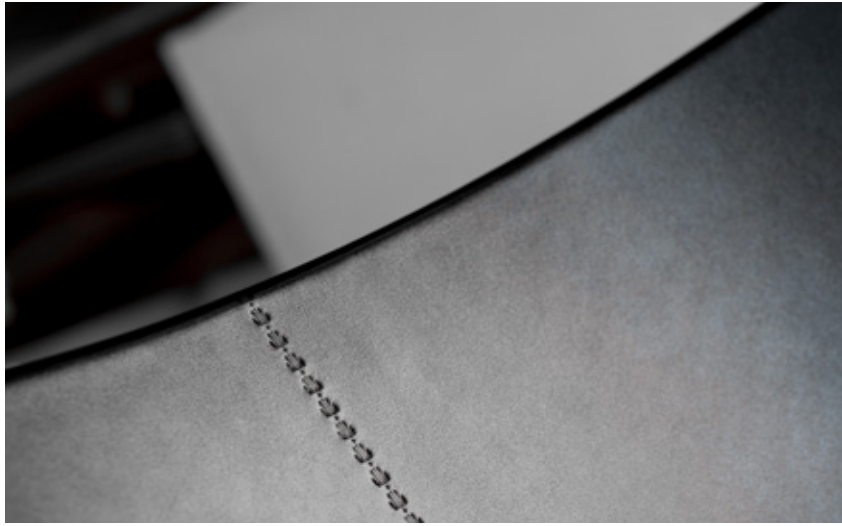

27

John Hutton designed the stackable Anziano chair in 1989 for the American Academy of Rome, reinterpreting the silhouette of ancient Greek klismos chairs using a contemporary design language. The chair was introduced in 1991 into the Donghia line, quickly becoming an icon of American industrial design. The Anziano chair made his appearance in Hollywood movies and it is part of the permanent collection of the Brooklyn Museum. In 2018 the Anziano lineup was complemented by bar and counter height companions. These additions maintain the ingenious stackability, but also come with a 3-sided footrest for added comfort.

29

30

31

Collins is a highly unique cantilever end table, entirely made of bent wood with an optional stone insert. A design inspired by jewelry, Collins gracefully overlaps with a sofa, like a cuff bracelet would on a wrist. The scale and the shape of this piece allow for many different uses ranging from drink table, end table and sofa-desk for laptops.

32

# Collins Side Table

33

34

35

36

## Curve Sofa

37

Inspired by the works of mid-century Italian masters such as Ico Parisi, the Curve sofa is a glamorous and sculptural upholstery masterpiece. Looking gorgeous from all around, it easily gives a focal point to any room. The seat features a loose cushion that can accommodate three people comfortably and the curved, tight back offers plenty of support, making the Curve ideal for conversations. Comes standard with a metal plinth base available in multiple finishes.

38

39

40

41

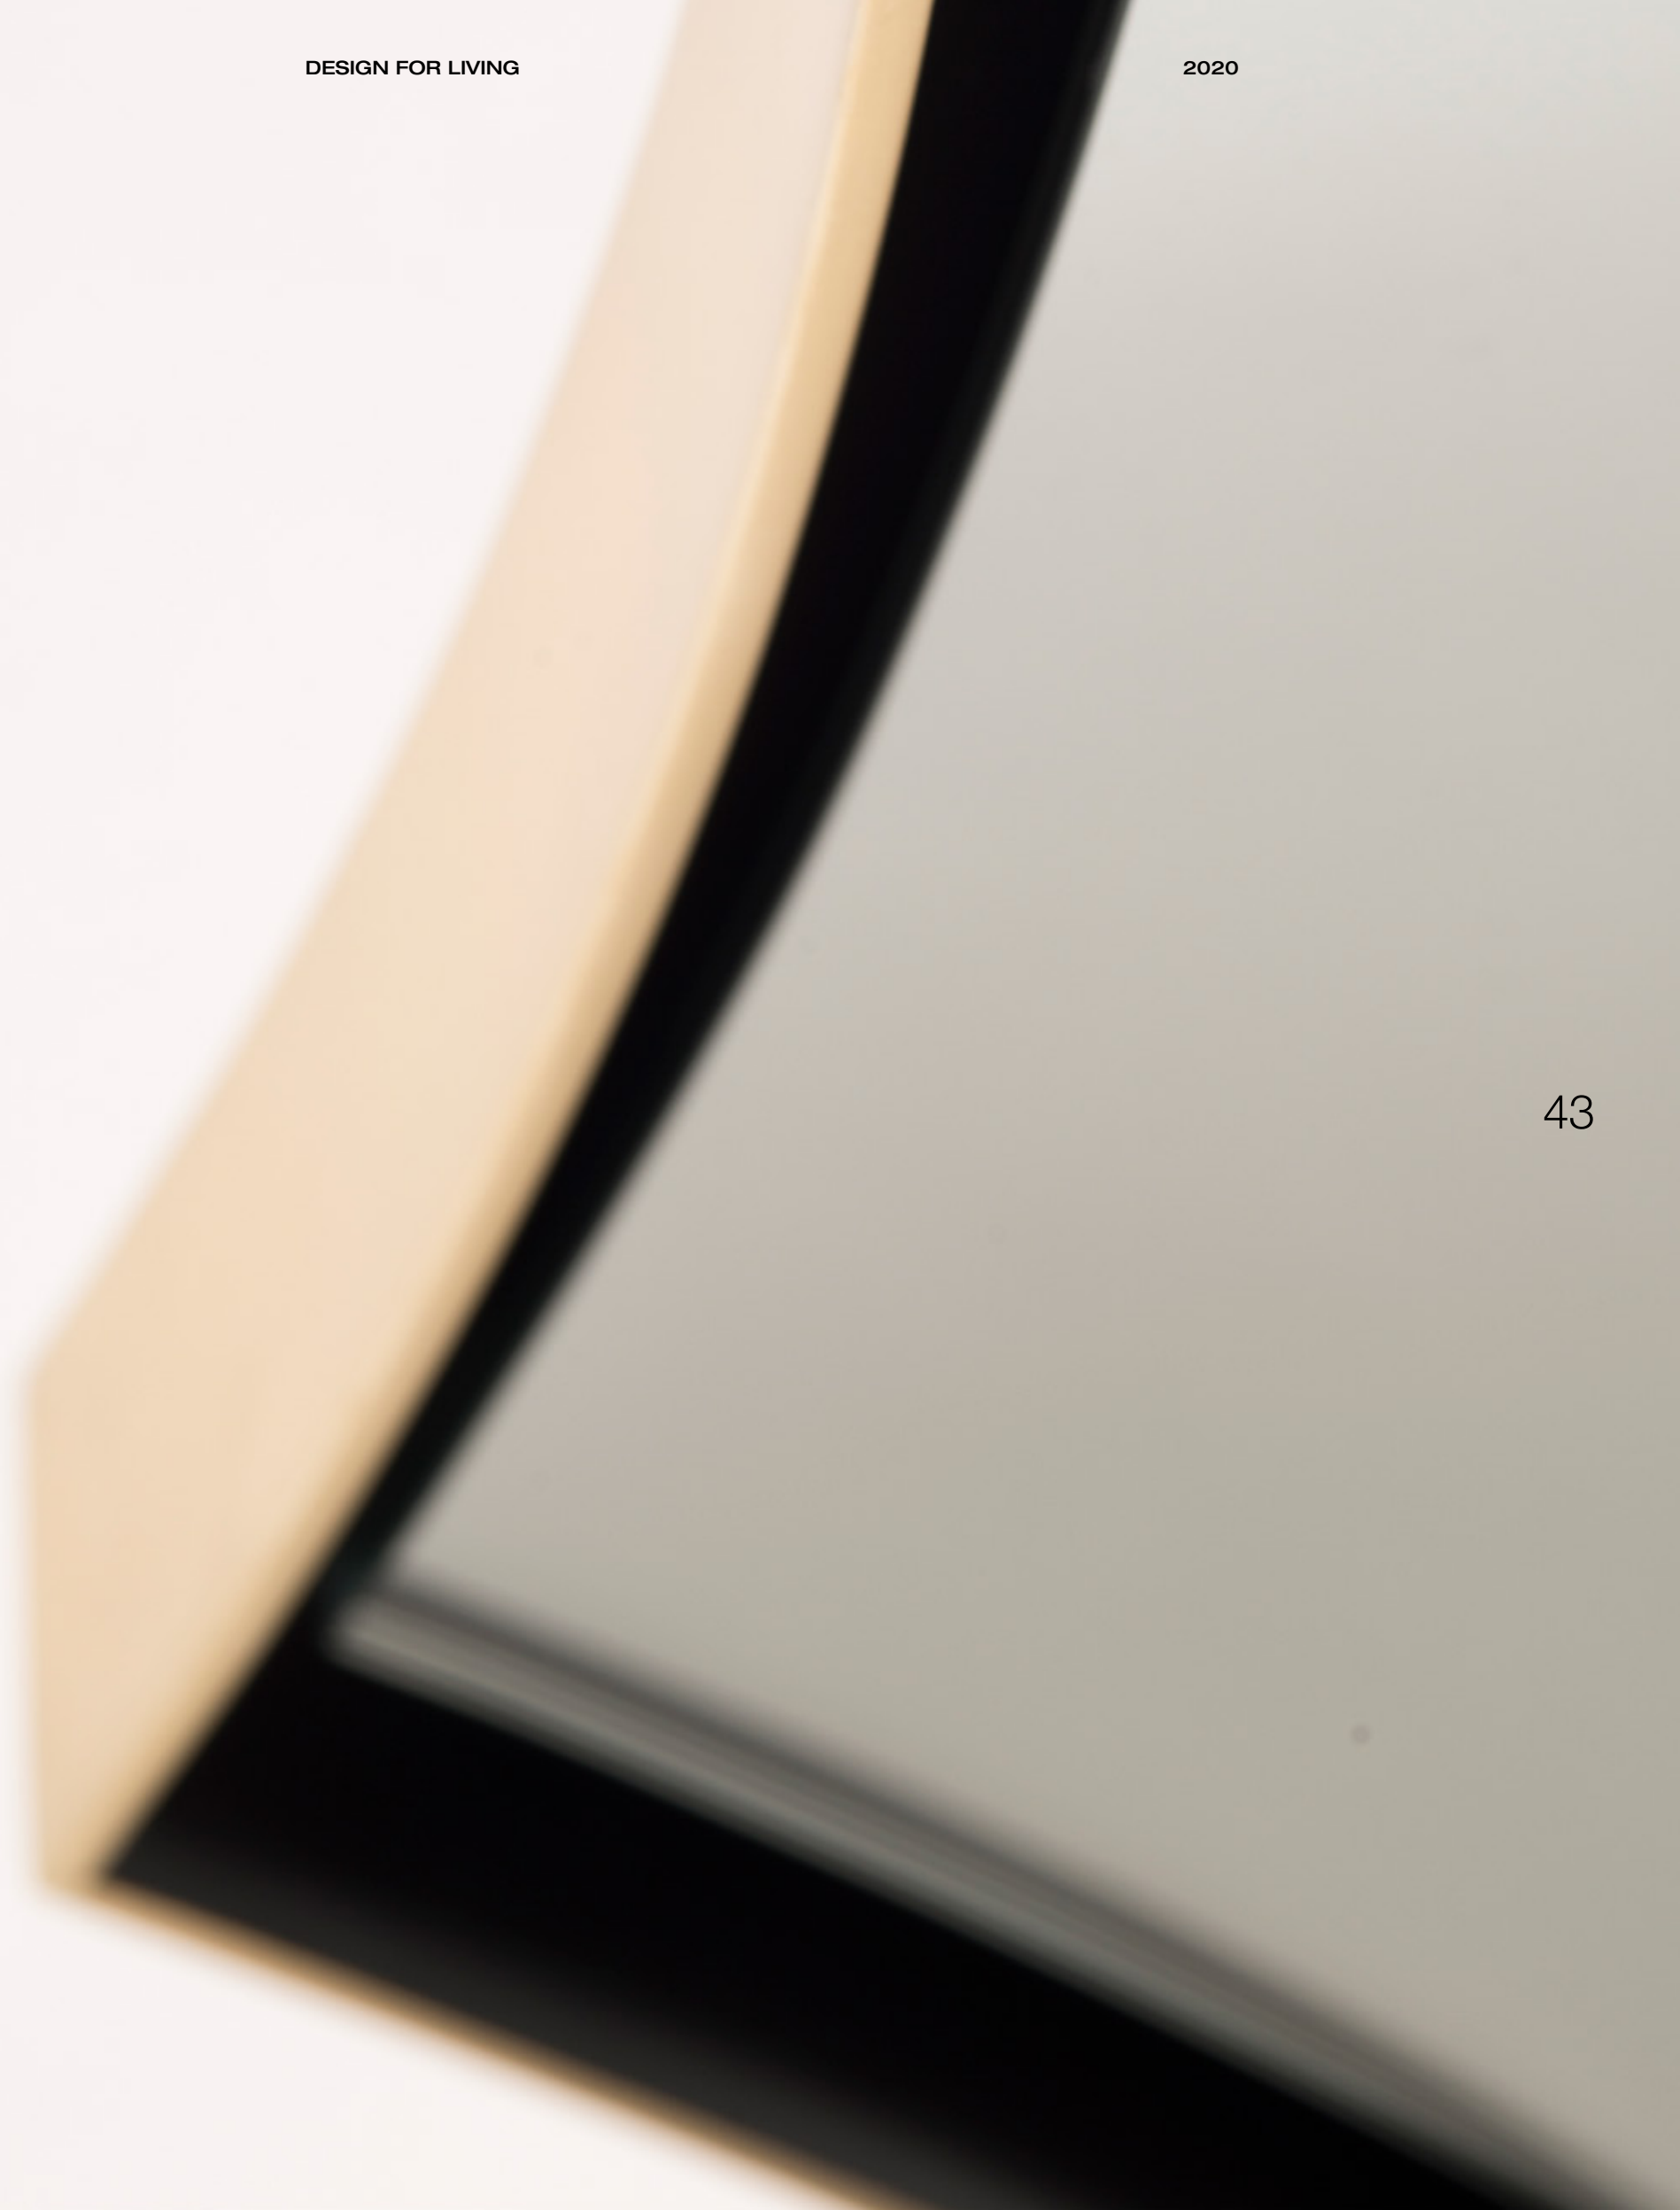

# Cusp Mirror

42

Cusp is a medium-sized wall mirror with a distinct look given by its octagonal brass frame. Details such as the combination of polished and rubbed patina finishes can only be achieved by hand, and shows the mastery of skilled artisans, enabled to preserve this trade thanks to the unparalleled beauty of their creations.

43

# Dee Chair

The Dee chair is the contemporary interpretation of the stark and masculine look of the early Donghia creations. The seat is suspended between light yet strong steel arms capped by walnut accents. It was conceived aiming for the ideal human-scale proportions, paying meticulous attention at how the different elements work together to result in the most desirable seat comfort.

# Druzy Lamp

A table lamp inspired by the whimsical beauty of natural Druzy crystals that form within rock fractures. Its unique look is achieved by a lengthy craft process that starts from blocks of matte, hand-poured Venetian glass, then stacked into a mineral-like formation and painted by hand. When lit, the glass body subtly diffuses the light through its interplay of countless facets and alluring negative spaces.

48

49

50

# Egos Lounge Chair

51

The Egos is a three-legged, partially upholstered lounge chair with a matching ottoman. Donghia's newest iteration of its signature klismos style brilliantly blends a nostalgia for edgy midcentury flair with an astonishing display of state-of-the-art woodworking. The impressive back leg and the sinuous stretchers are carved out of solid American walnut.

# Esha Collection

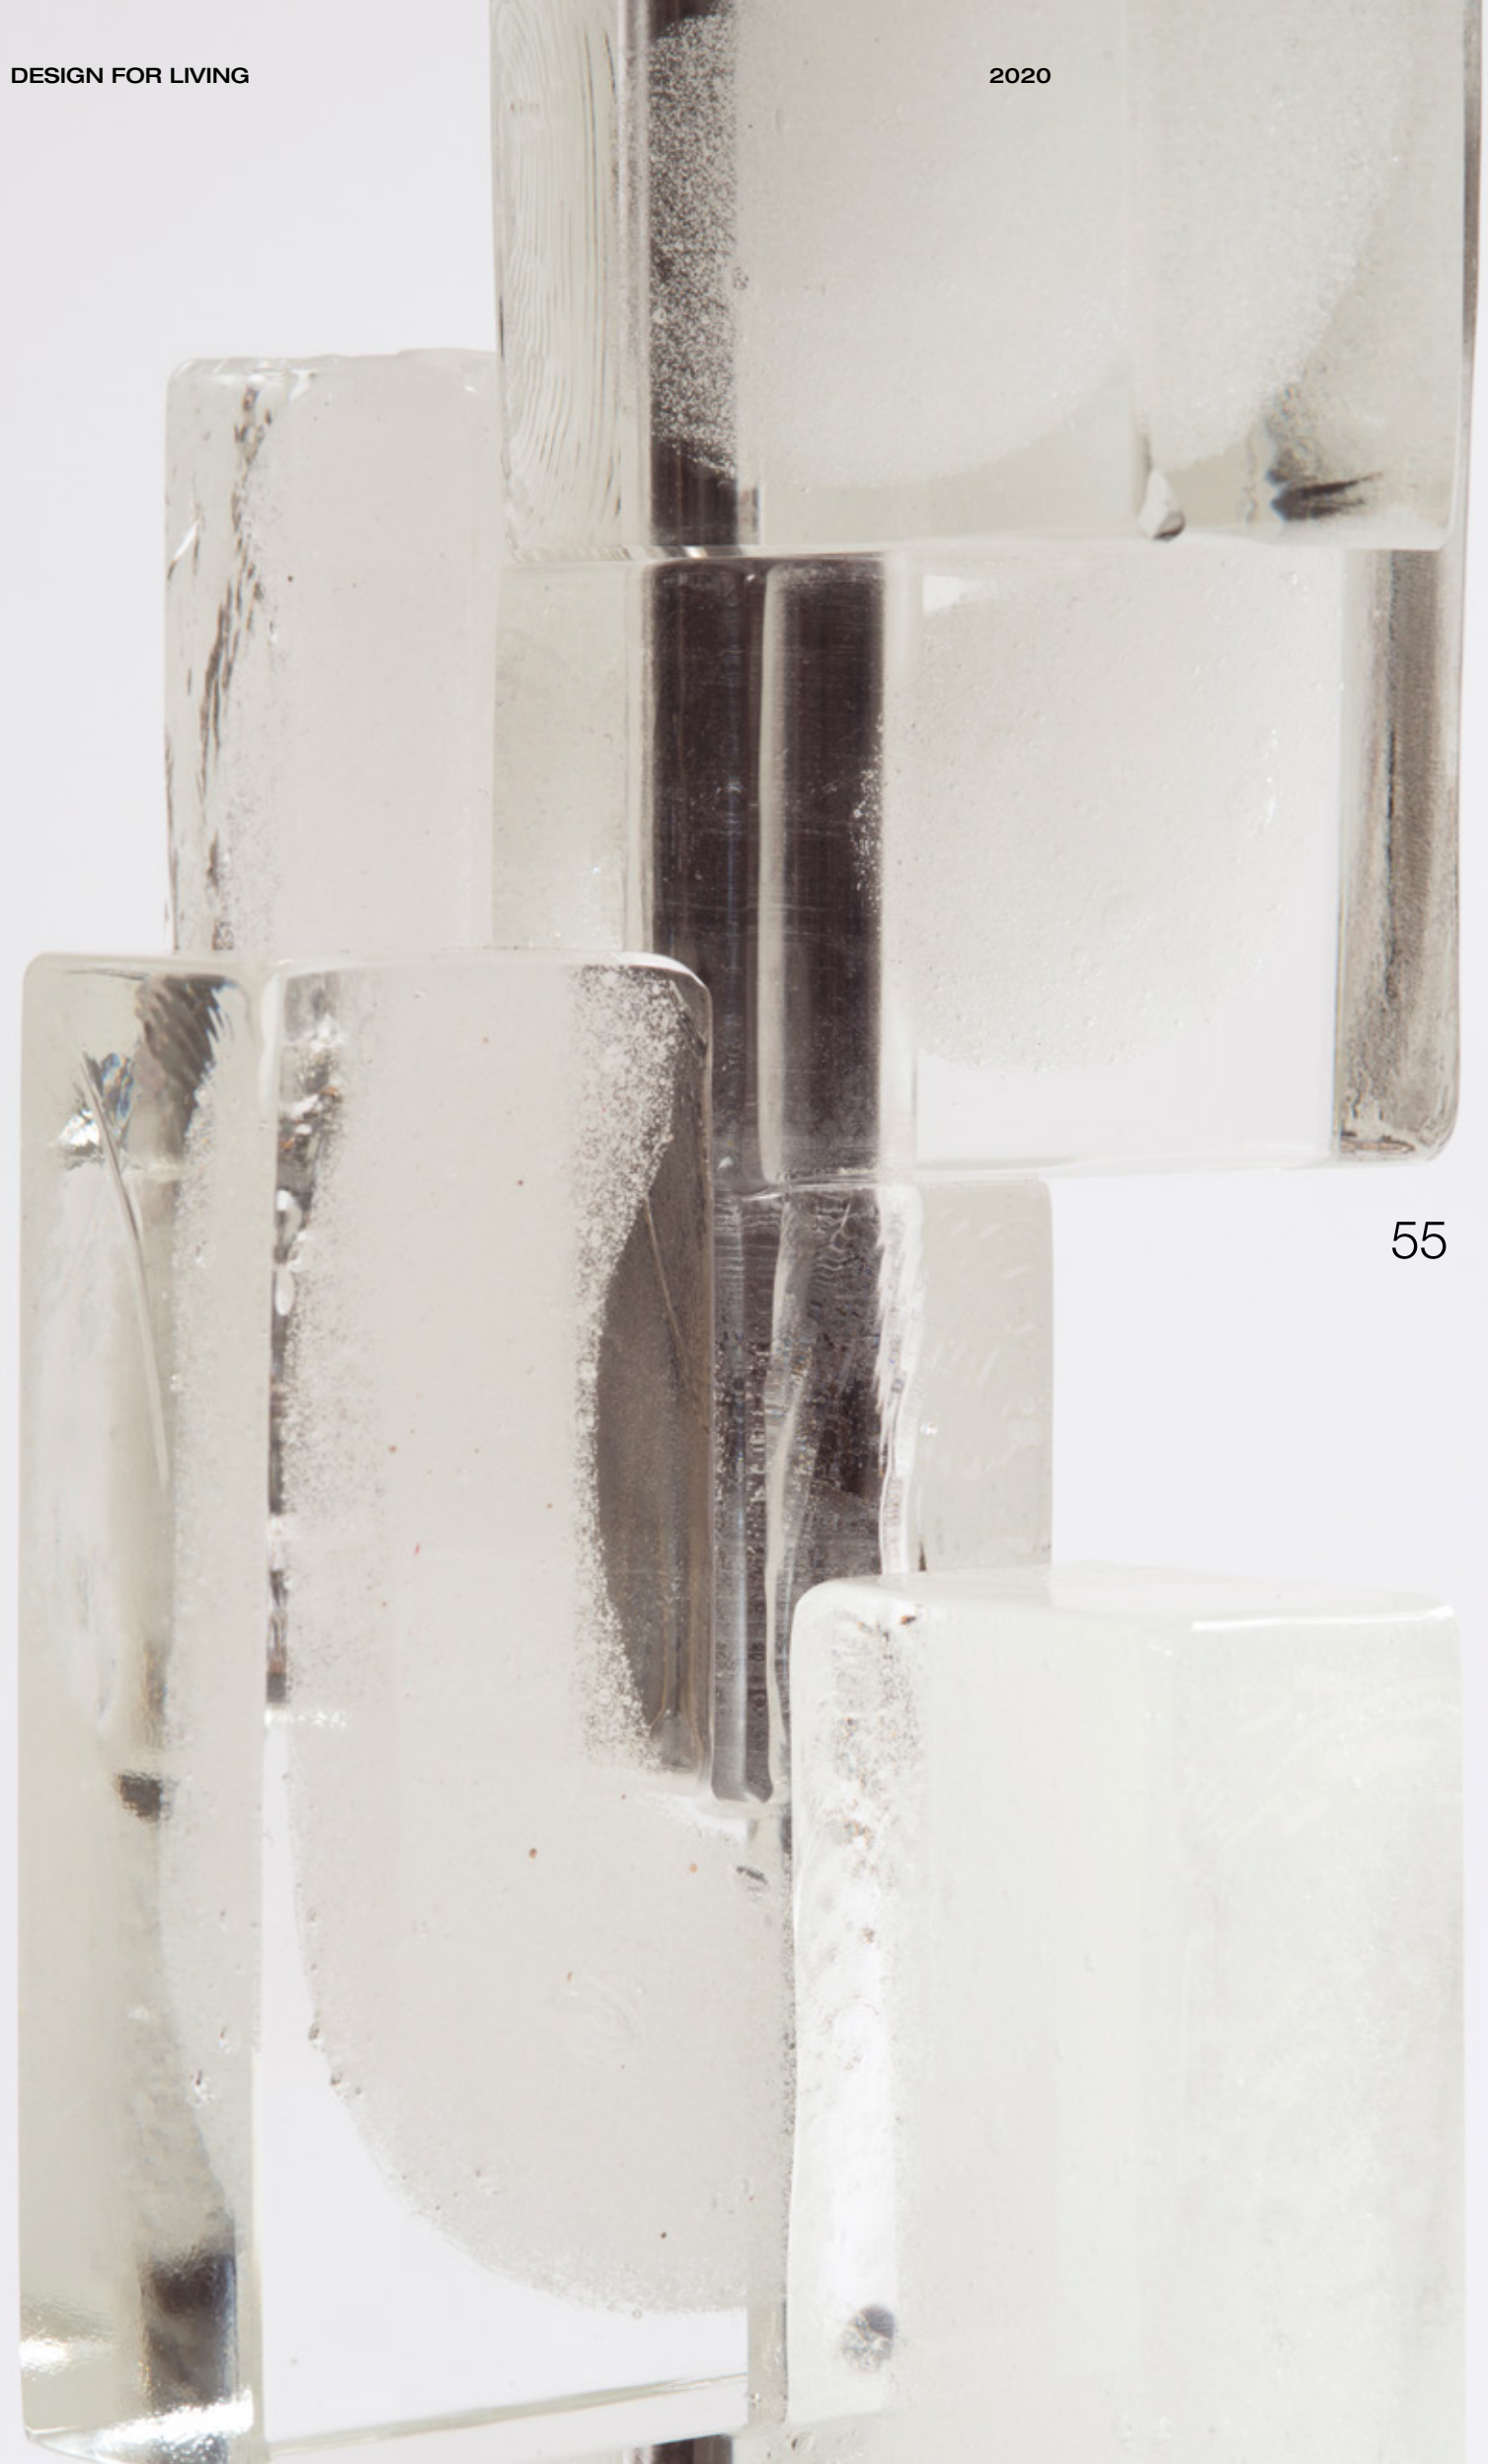

Inspired by abstract geometrical motifs, in each piece of the Esha collection the same solid glass blocks, hand-cast in Murano, are combined in a different pattern to convey from all angles a nuanced reflection of the light. The finishes are achieved by hand by incorporating special minerals within the glass during the casting process, giving to each block a unique appearance.

54

55

56

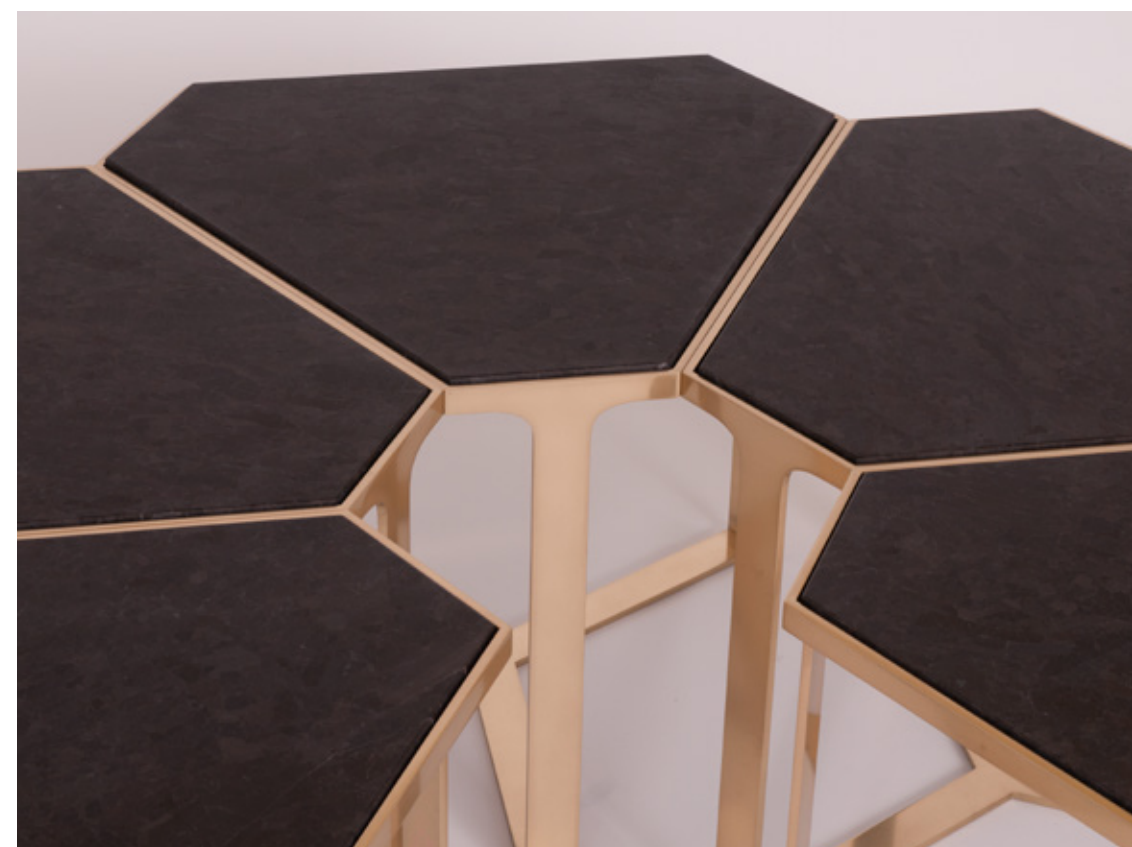

57

# Forma Table

The Forma table is designed to be a functional, playful and elegant addition to any living space; its eclectic yet clean aesthetic can tie it into virtually any style. The great scale and precious details make it the perfect occasional table while its unique, clever, hexagonal shape invites to play with multiples. Available with options of wooden or natural stone tops.

58

59

60

# Georgette Lounge Chair

2020

61

Refined and sumptuous, the Georgette Lounge Chair flows like its namesake fabric might on a dancer's costume. Drawing inspiration from Donghia classic designs, Georgette offers superb comfort and lasting quality in a very complex piece. The carved wood detail that frames the chair is its absolute highlight, and its refined finishes can tie this masterpiece into transitional as well as contemporary spaces. The Georgette comes standard on a wooden plinth base with option of swivel base available.

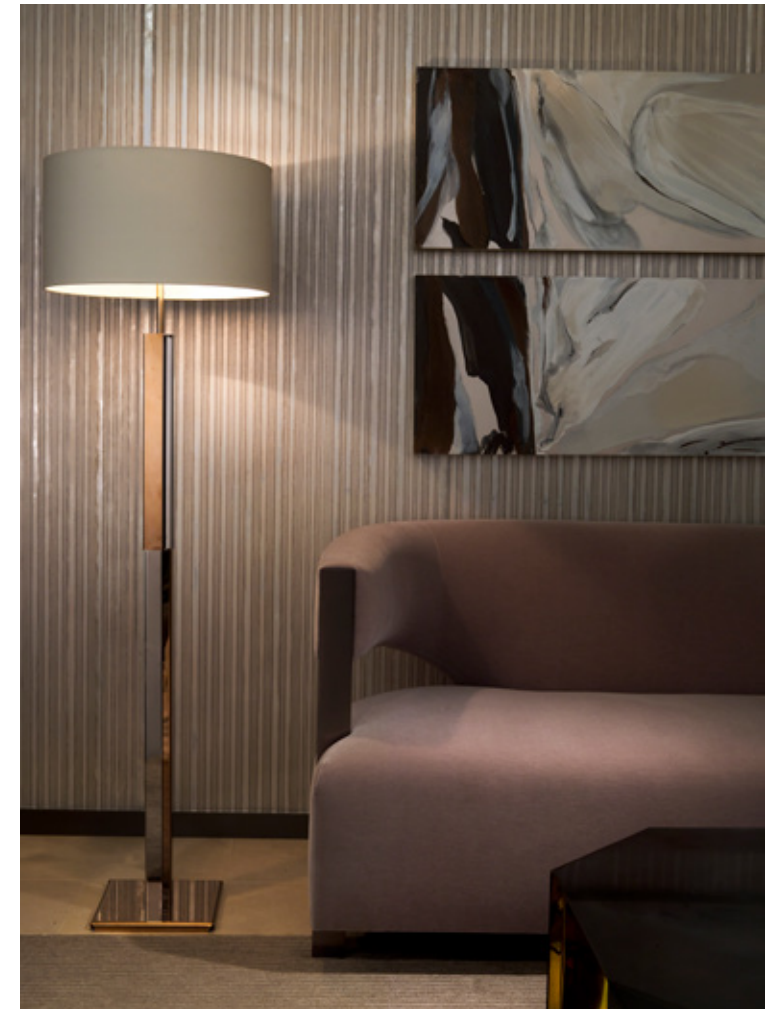

# Giselle Settee

62

63

Drawing inspiration from the quintessential-ly Donghia klismos silhouette, the Giselle Settee is a striking ensemble of soft, gentle curves and bold geometric details, equally beautiful from all sides. Known to be a favorite of celebrities, with its sculptural look it certainly makes a statement as a compact sofa or as a floating accent piece.

64

# Island Collection

Originally designed in 2001 by Joe D'Urso for Donghia, the Island collection quickly became the cornerstone of the brand lineup. Eccentric and clever like the lifestyle it epitomizes, the shape and layout of this unique seat still defy all existing concepts of sofa. The tight seat and back are an impeccable display of the Donghia tailored look, with its combination of exact streamlines and soft details.

65

66

67

# Klismos Chair

The Klismos upholstered chair is Donghia's take on a neoclassical style whose origins can be traced back to ancient Greece: in many scenes painted on pottery gods and goddesses can be seen sitting on klismos chairs. Its elegant shape, with a curved back and splayed legs, makes a timeless and playful addition to any setting. Comes standard with or without nailheads.

# Lana Club Chair

Combining Klismos contours with 1950's Hollywood glamour, the Lana Chair has been a beloved part of the Donghia portfolio since 2012. Perfectly scaled for the human body, its curved back and arms make you feel hugged as you lounge in it, while its contemporary style with gentle curves and tailored details makes it a great fit for any space. The Lana comes standard on a wooden plinth base with option of swivel base available.

72

73

# Manhattan Sectional

74

75

Originally designed by Angelo Donghia for Ralph Lauren's 5th Avenue Apartment, the Manhattan Sofa is the most iconic of Donghia's furniture creations. With a design well beyond its time, it set a standard for the contemporary urban glamour aesthetic that lasts to this day. Wide, low, modular and extremely comfortable, the Manhattan is a piece that best represents the effortless elegance the brand is known for.

76

77

78

# Marchesa Mirror

79

Marchesa is one of Donghia's signature mirrors. Hand crafted in Murano using only the finest silvering, it strikes the balance between the ancient Venetian techniques and New York City's glamorous transitional aesthetic. Its large size and a thin tiled frame result in a greatly functional piece, with plenty of reflective surface.

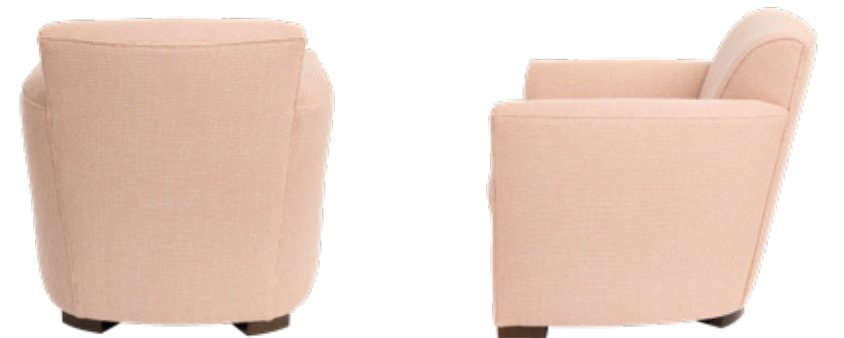

80

# Noble Club Chair

81

The Noble is one of the best examples of the legendary comfort Donghia has been known for decades. A timeless, approachable and uncluttered design where good proportions, top tier materials and tailored upholstery make the show. The chair comes standard on wooden feet with option of swivel base available.

# Origami Collection

82

83

The Origami collection bears both the name and look of the traditional Japanese art of folding paper into objects. Donghia's Origami is achieved through a complex artisanal process of cutting, folding and welding a substantial metal foil into the final shape of a cocktail, occasional and console tables. Its true wonder is the reflective finish on the faceted inside, that creates an illusion of a kaleidoscope-like endless space enclosed into sharp geometrical boundaries.

84

85

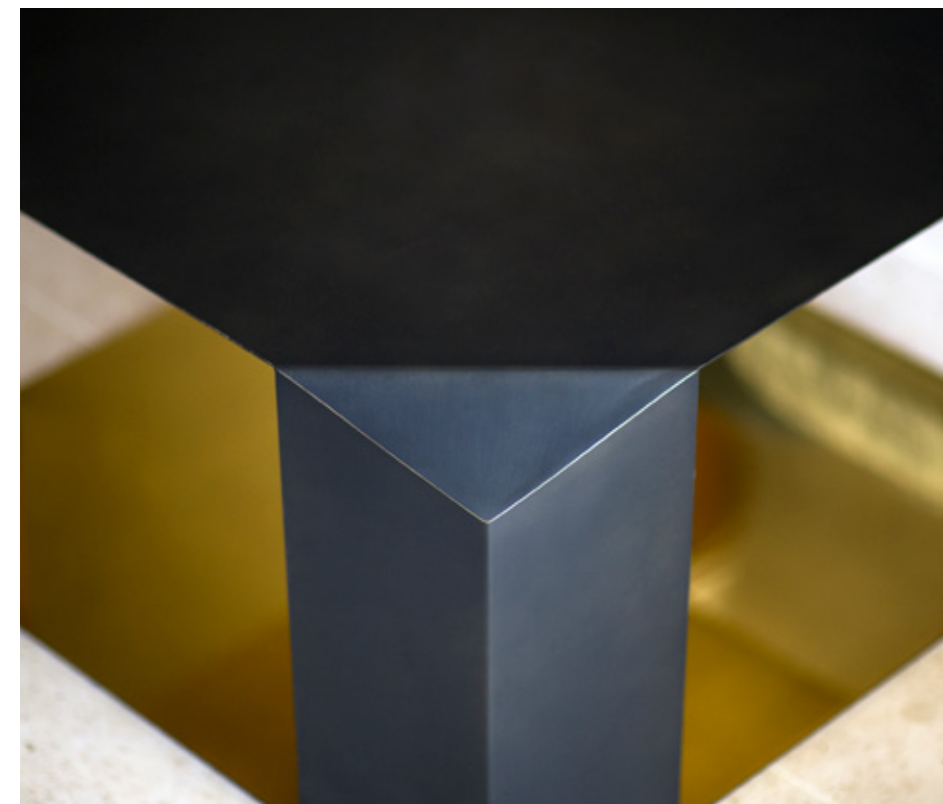

86

87

On this page:  
Origami console table

88

## Pavel Sofa

A bold, mid-century inspired contour and soft volumes define the highly unique Pavel sofa. Layered and sculpted lofts gracefully embrace the loose cushion seat, creating a comfortable and welcoming nest. A piece that exudes glamour and invites to party and conversations. Available in both sectional and three seater sofa configurations.

89

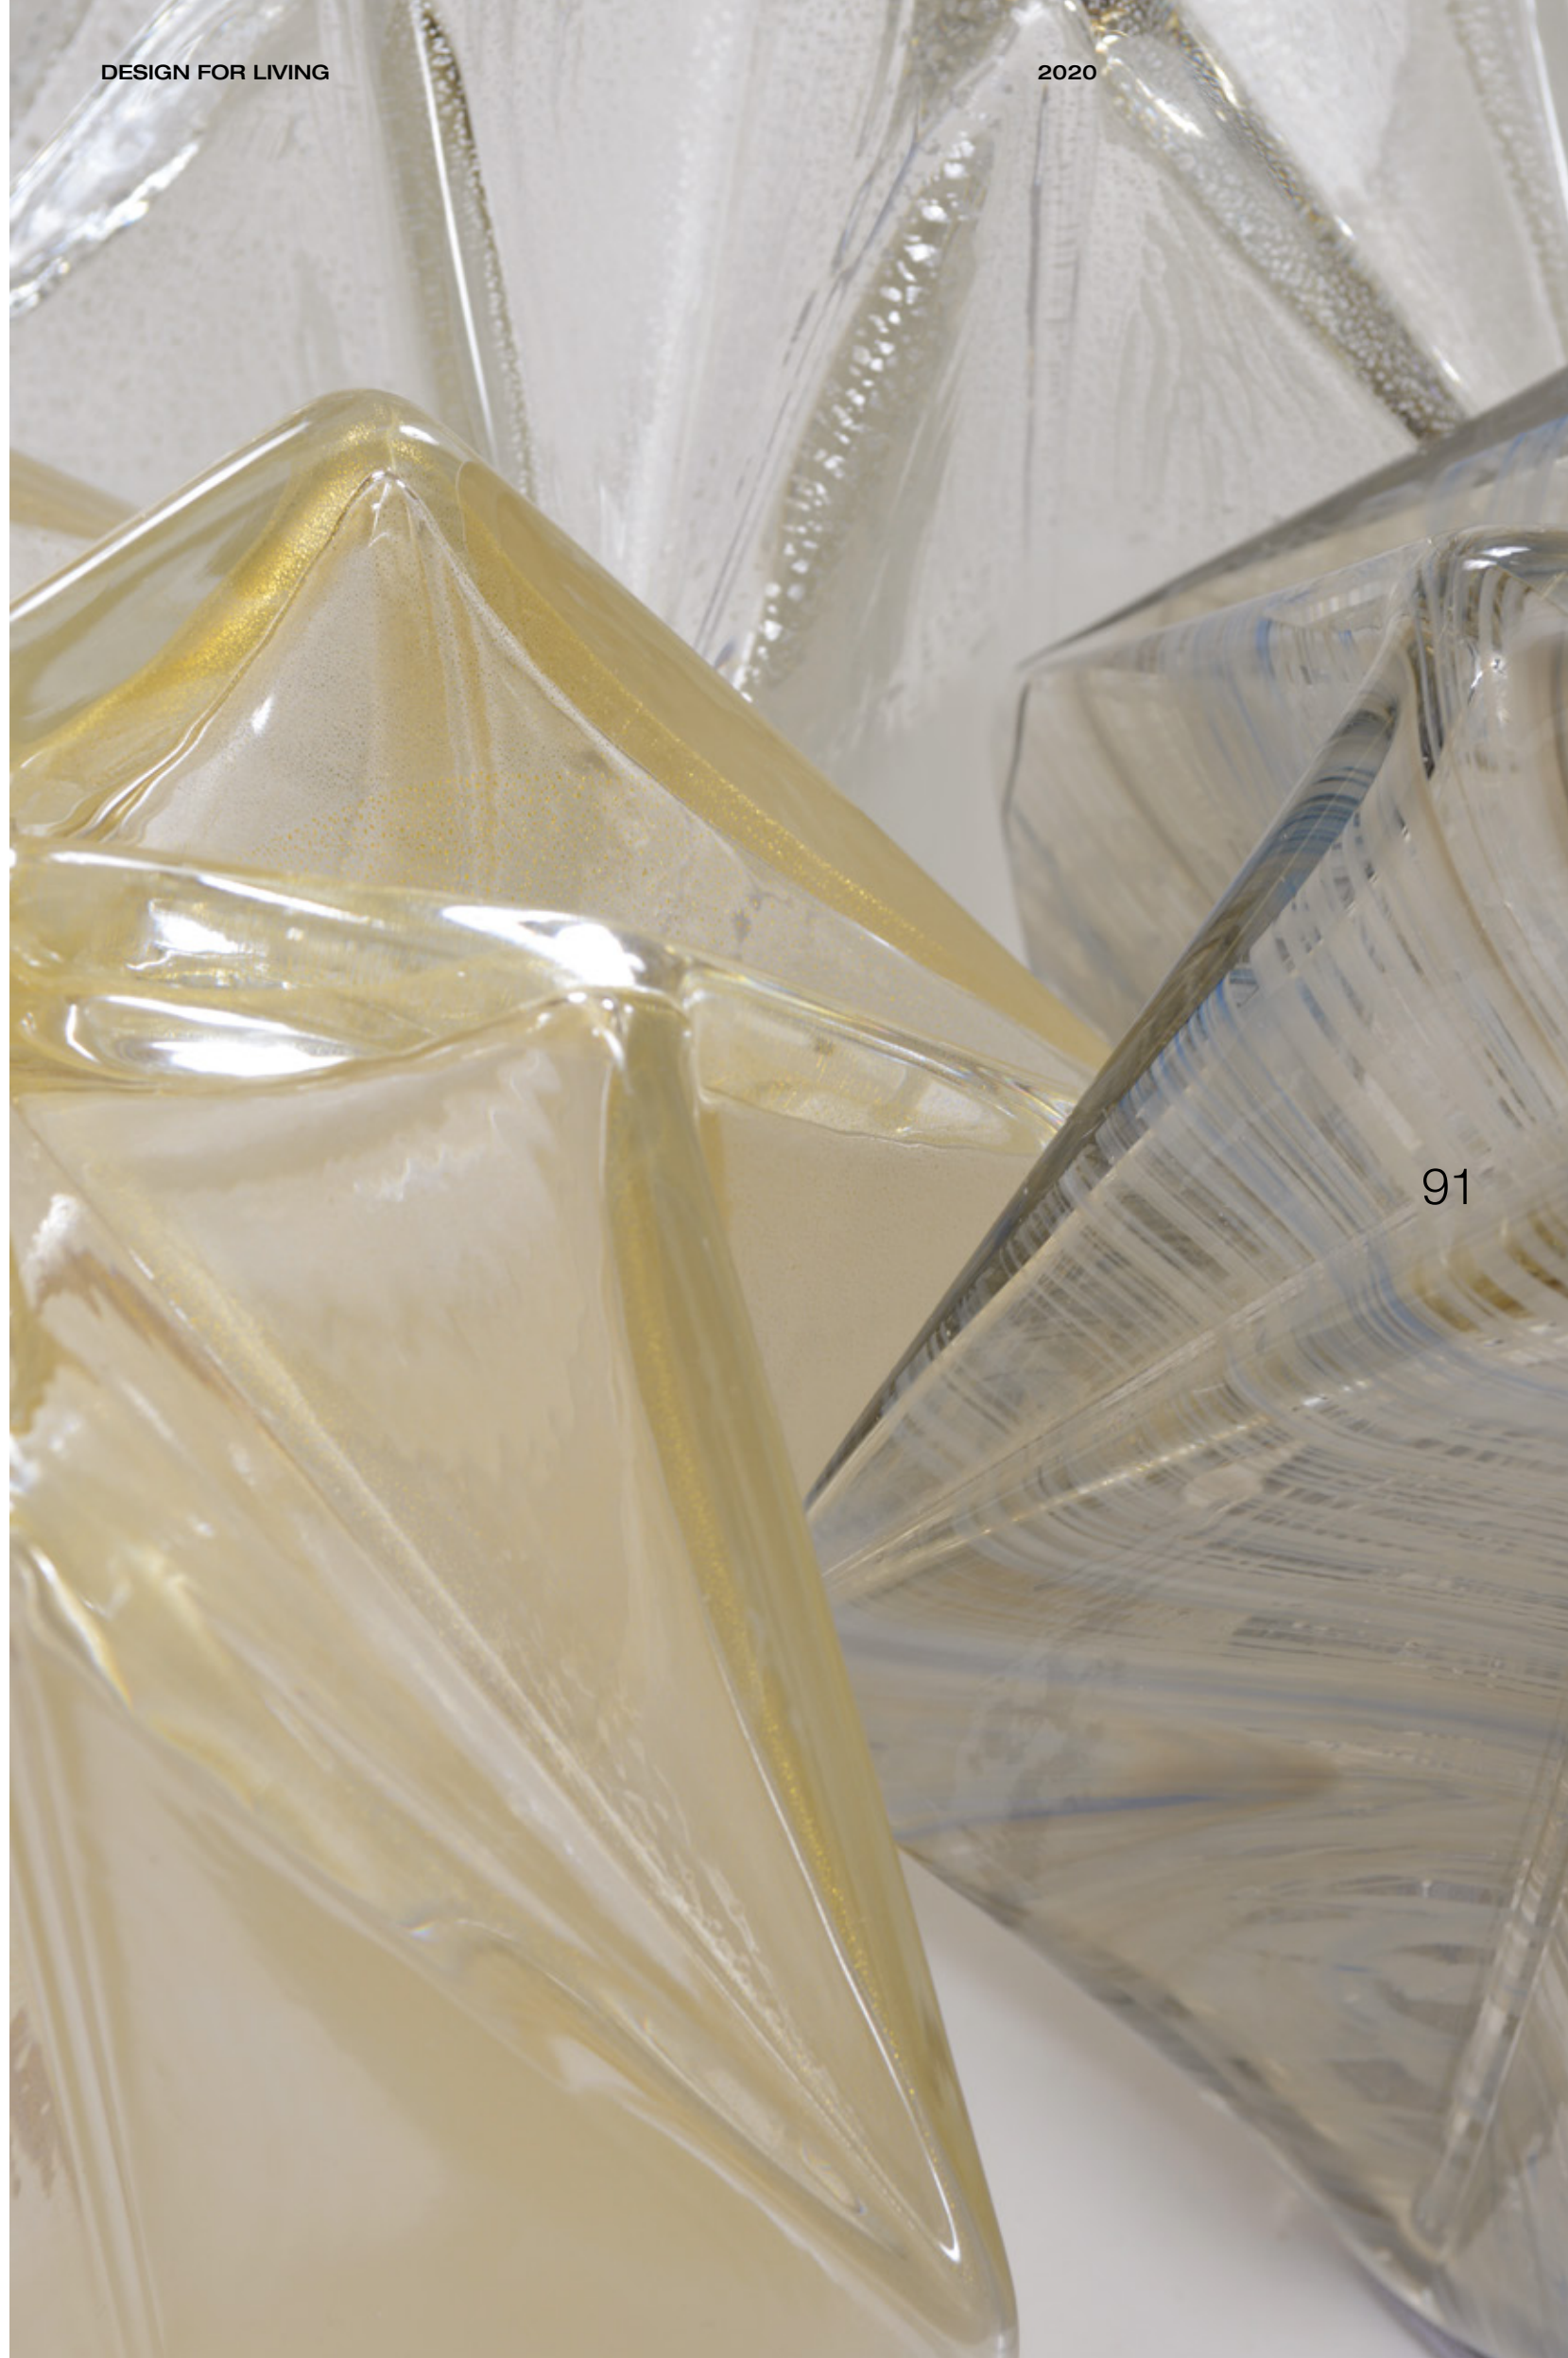

90

This hand-blown Venetian glass globe is multi-folded and meticulously finished, allowing the light striking the lamp to project at multiple angles like on a precious stone. Prong's brilliance is best captured in Donghia's blue agate; a clear glass with sweeps of grays and blues due to minerals added manually during the blowing process.

# Prong Table Lamp

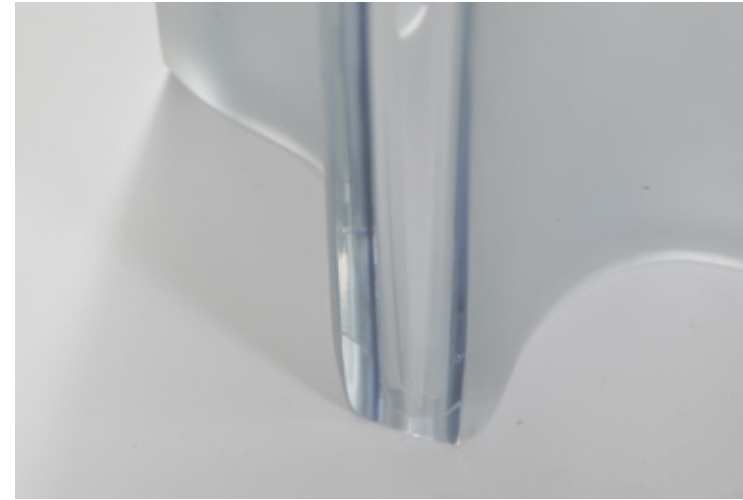

91

92

93

Crafted into a symmetrical shape from hand-blown glass, Quatrefoil's intriguing design is defined by the contrast between matte curved prongs and clear, flat surfaces. A clever and delicate form to showcase the multiple layers that make up the colored glass. The textures are produced by one of Murano's classical techniques called *nastratura*, each piece requires a high amount of finishing in the hand of a skilled craftsman.

# Quatrefoil Table Lamp

# Renaldo Collection

This award winner hand-blown glass chandelier epitomizes the 70's chic lifestyle and look that Angelo Donghia was known for and that remains part of the Donghia DNA. The wide range of finish combinations and sizes, balanced proportions and impeccable details allow Renaldo to serve as striking design statement in a contemporary setting or subtle accent for a sumptuous room.

96

97

98

# Riverside Sectional

Named after Riverside Park in the Upper West Side of Manhattan, Riverside is a rounded Sectional Sofa designed for today's lifestyle. Its deep and low seat is designed for lounging with the best possible comfort. This sofa is a floating upholstered sculpture capable of defining the home space in endless ways thanks to its many possible iterations: the Riverside sections can be easily swapped, moved, turned, and even used to make tête-à-tête type of seats.

99

100

101

102

In this long-time Donghia icon the dramatic, sinuous silhouette mimics the shape of a marine shell. The seat is embraced by a tight, tailored back, crafted with the most traditional upholstery techniques, resulting in the unmatched quality, comfort and graceful aesthetic that made this piece a favorite over several decades.

103

# Shell Chair

104

105

# Stellare Collection

Stellare, as the most iconic heirloom of Donghia's glamorous '80s, is regarded as the emblem of the entire Donghia lighting collection and one of the most significant statements of the brand's style. Up to this day, only one well-respected glass shop in Murano is capable of crafting the stunning twisted square section that makes Donghia chandeliers so unique.

106

# Stone Mirrors

107

Inspired by the shape of monoliths and modern abstract art, is a set of handmade wall mirrors with handmade antiqued silvering and wide beveled edge details, with all the charm of an authentic piece of art. The large mirror has a light antiqued finish and the the small mirror has a dark antiqued finish, and they are both crafted in Murano, Italy.

108

109

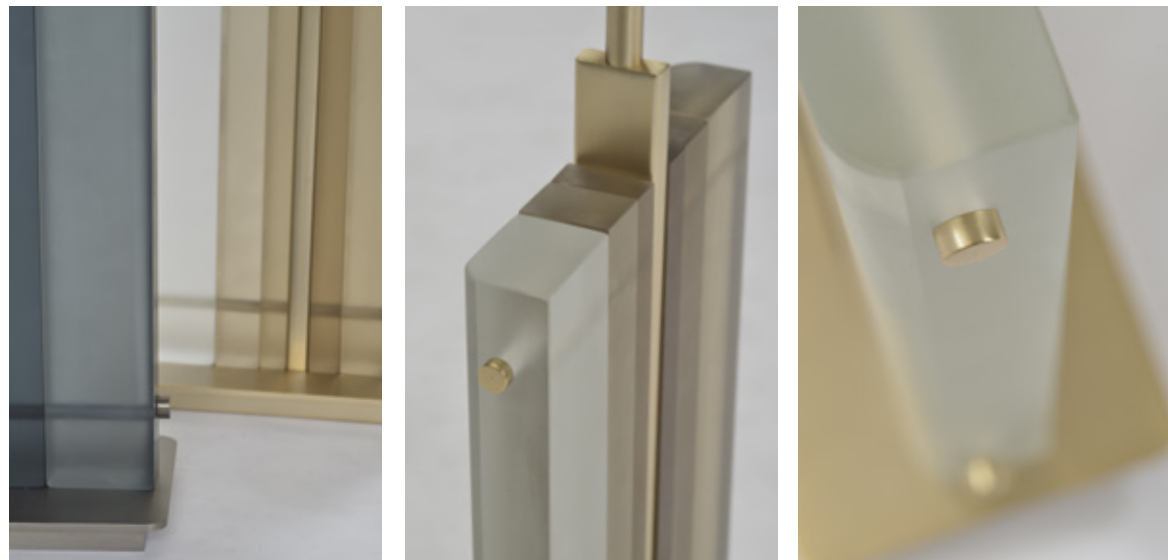

Inspired by the namesake stone, Tourmaline showcases a gradient of handmade solid Murano glass blocks. This sophisticated table lamp ranges in colors of smoky topaz, gold, brown, indigo and slate. A dreamy artwork consisting of six blocks in graduating shades, the colors are produced with a special formula unique to this piece and may present small variations from batch to batch.

110

111

# Tourmaline Table Lamp

112

# Trillion Collection

113

With a concept inspired by the Trillion diamond cut, the sophisticated, fully upholstered back of the Trillion chairs has the shape of three smooth petals, embracing an open detail framed by a cord welt and solid maple legs. Its comfort is only as striking as its delicate beauty. Trillion is available as a side chair, counter chair, and bar stool.

The finest materials  
tailored with unrelenting  
attention to detail
